RE:Complaint

Dear Barry Stewart,

Per your request enclosed is the permits and violations on the Galaxy at 7000 Kennedy Boulevard East.

We have been called on numerous complaints to the galaxy towers, one of the first complaints was work being done on the berm which goes around the driveway which as a building Subcode in my estimation does not need a building permit. Upon investigating they needed an electrical permit which is enclosed was obtained. Also upon subsequent investigations other work was going on which we issued violations and permits were issued. Please feel free to contact me if any other questions need to be answered. My cellular phone number is 201. [REDACTED]

SINCERELY,

A handwritten signature in black ink, appearing to read 'Brian Ribarro', written over a horizontal line.
